☐ Continuation Sheet Attached**Brief Description of Arguments to be Presented:**Proposed amendment to Claim 10

An interview was conducted on the above-identified application on _____.

NOTE:

This form should be completed by applicant and submitted to the examiner in advance of the interview (see MPEP § 713.01).

This application will not be delayed from issue because of applicant's failure to submit a written record of this interview. Therefore, applicant is advised to file a statement of the substance of this interview (37 CFR 1.133(b)) as soon as possible

Katherine Pauley
 (Applicant/Applicant's Representative Signature)

 (Examiner/SPE Signature)

10. (Proposed Amendment) A digital transmission method for error-correcting coding, comprising:

- coding, including applying a given coding scheme to generate a coded information item having a certain redundancy from a selected information item;
- transmitting the coded information item on a channel;
- obtaining at least one parameter used in the transmitting;
- puncturing the coded information based on the at least one parameter;
- decoding the coded information after the transmitting to obtain an estimate of the selected information item;
- correcting at least one transmission error based on the certain redundancy; and
- depuncturing the coded information based on the at least one parameter.
